DETAILED ACTION

1. Claims 1-10, 12, 13, and 15-64 are pending in this communication filed 08/26/05 entered as Amendment After Final and Extension of Time.

EXAMINER'S AMENDMENT

2. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants', and amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the claims

3. In Claim 1 "(b) the first taker screen permitting the first trader to view and accept dealable price quotes" after the first "quotes" delete the second "quotes".

The amended claim reads: "(b) the first taker screen permitting the first trader to view and accept dealable price quotes the first trading floor has received from the centralized computer system."

Reasons for Allowance

4. Claims 1-10, 12, 13, and 15-64 are allowed.

The following is an Examiner's statement of reasons: The best prior art of record, Linstroth et al discloses the use of a quotation system which communicates trades made on floors of various exchanges via a data link, in the context of trading. Linstroth et al does not disclose a centralized computer system which determines which pairs of trading floors are credit bearing counter-parties which extend bilateral credit to one another, the centralized computer system also sending dealable price quotes to the

trading floors, each trading floor being sent dealable price quotes which have been prescreened for bilateral credit and indicating at least a price which one or more credit bearing counter-parties of the trading floor receiving the dealable price quote are willing to buy and/or sell financial instruments to such trading floor. The Kramer reference discloses some aspects of conducting trading transactions but neither discloses or suggests the features of a centralized computer system which determines which pairs of trading floors are credit bearing counter-parties which extend bilateral credit to one another, the centralized computer system also sending dealable price quotes to the trading floors, each trading floor being sent dealable price quotes which have been prescreened for bilateral credit and indicating at least a price which one or more credit bearing counter-parties of the trading floor receiving the dealable price quote are willing to buy and/or sell financial instruments to such trading floor. An extensive search of the applicable prior art was done but showed no better references.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Other prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

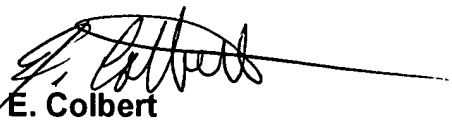

Markowitz, Arthur D. disclosed a portable trade recordation and submission system with display screens and account setup.
